

**APPLICATION FOR ABOVEGROUND UTILITY PERMIT
IN CALHOUN COUNTY RIGHT-OF-WAY**

DATE _____

PERMIT NUMBER _____

TO THE BOARD OF SUPERVISORS, CALHOUN COUNTY, IOWA:

The _____, incorporated under the laws of Articles of Incorporation, authorized to do business within the State of Iowa, with its principal place of business at _____, _____, does hereby make application requesting permission to occupy certain portions of public right-of-way and that the County Engineer be directed to establish the location of lines for transmission of _____ on secondary route _____ from _____ to _____ a distance of _____ miles.

General /Project Description: _____

IT IS ALSO AGREED:

1. That the applicant will file a plat setting out the location of proposed line on the secondary route and that said plat is hereby made part of this agreement; and that the description of the proposed installation including: type, height and spacing of poles; maximum voltage, lengths of crossarms, minimum clearance and number of wires; guy and/or brace location; and other pertinent information.
2. The applicant will, at any time subsequent to installation of utility lines, at his own expense, relocate or remove his lines as may become necessary to conform to new grades, alignment or widening of right-of-way resulting from maintenance or construction operations for drainage and highway improvements. The applicant further agrees to perform this operation promptly upon written order by the highway authority or its authorized representative without cost to the highway authority in accordance with those applicable sections of the current Code of Iowa. If the applicant fails or is unable to comply promptly, the highway authority may cause work to be performed and the cost of such work will be paid by the applicant upon receipt of statement.
3. The vertical clearance of overhead wires shall comply with the applicable national safety code.
4. That the applicant agrees to construct, backfill, restore to original condition and maintain any area disturbed by its operations.
5. That the maximum safety precautions shall be maintained by the applicant at all times to protect workers, property owners and the traveling public from accidents due to the operations of the applicant. Traffic control signing shall be as per I.D.O.T. standards.
6. That the highway authority shall be saved harmless of any damages resulting from the applicants operations.
7. The applicant will notify the County 48 hours before starting construction.
8. Special provisions.
